Georgia Coverage Report

Summary

All counts are as of May 15, 2018. Due to the dynamic nature of the bank and ongoing work, totals may shift as additional work is completed. The totals reflected in this summary report represent unique aligned items within the Georgia standards. Items that are aligned to more than one standard, such as writing prompts that assess multiple writing standards, are counted only once under their primary subject. In addition, Technology-Enhanced Items (TEIs) are new item types, and the availability and appearance of the TEIs is subject to the functionality available in the data management platform.
